

**Thursday 10 June 2010**

Hotel Holberg

<b>Time</b>	<b>Subject</b>	<b>Speaker and title</b>
15:00 - 16:30	Workshop	Bouwes Bavinck: Pain study: Is pain a clinical symptom of cutaneous malignancy?
16:30 - 18:00	Workshop	Lebbé: Kaposi's sarcoma
18:00 – 20:00	On invitation	SCOPE Board meeting & Ad hoc-groups
20:00 - end	Buffet Dinner	Hotel Holberg

**Friday 11 June 2010**

Rikshospitalet

<b>Time</b>	<b>Subject</b>	<b>Speaker and title</b>
09:00 - 13:00	Scientific meeting	
09:00 - 09:05	Opening of the meeting	Bouwes Bavinck
09:05 - 09:20	Abstract 1	Harwood: A prospective study of skin cancer in an ethnically diverse renal transplant population in the UK: implications for skin surveillance. (26)
09:20 - 09:35	Abstract 2	Mougel: Baso-squamous cell carcinomas in organ transplant patients. (19)
09:35 - 09:50	Abstract 3	Sitec: Skin conditions after renal transplantation in childhood- the Norwegian experience. (23)
09:50 - 10:05	Abstract 4	Kanitakis: Composite tissue allografts (hands and face): The role of dermato(patho)logy. (7)
10:05 - 10:20	Abstract 5	Imko-Walczuk: The impact of skin cancer awareness on prophylactic behavior among renal transplant recipients. (21)
10:20 - 10:35	Abstract 6	Helsing: Genes regulating melanogenesis as risk factors for squamous cell carcinoma in renal transplant patients in Norway. (13)
10:35 - 10:45	EXTRA TIME FOR DISCUSSION	
10:45 - 11:15	COFFEE AND TEA BREAK	
11:15 - 11:30	Abstract 7	Gonzales: Giant warts in a patient with autoimmune hepatitis and Hodgkin's disease – a case report. (9)
11:30 - 11:45	Abstract 8	Nindl: Human Papillomaviruses and Cutaneous Squamous Cell Carcinoma. (4)
11:45 - 12:00	Abstract 9	Roesl: Mastomys coucha, a natural rodent model to study papillomavirus-mediated skin carcinogenesis. (15)
12:00 - 12:15	Abstract 10	Mladkova: The role of Merkel cell polyomavirus in non-melanoma skin cancer: are organ transplant recipients at greater risk? (27)
12:15 - 12:30	Abstract 11	Feltkamp: Identification of a new cutaneous human polyomavirus in a heart transplant patient.
12:30 - 12:45	Abstract 12	Lebbé: HHV8 transmission and related morbidity in organ recipients. (17)
12:45 - 13:00	EXTRA TIME FOR DISCUSSION	
13:00 – 14:00	LUNCHEON	Rikshospitalet
14:00 - 17:00	Social program: Architecture and health, bus to Vigeland Sculpture Park & National Art Gallery, Return to hotel by foot (2 min).	
18:00 - 23:00	<b>“A Walk in Norwegian Woods”</b> Bus to Tryvann Hill (with an excellent view of Oslo), Walking to Tryvann Cottage (30-40 min), BARBEQUE DINNER in Tryvann Cottage, Return to hotel by bus	

**Saturday 12 June 2010**

Rikshospitalet

<b>Time</b>	<b>Subject</b>	<b>Speaker and title</b>
08:45 - 13:00	Scientific meeting	
08:45 - 09:00	Abstract 13	Lambert: Genome-wide SNP and expression profiling of cutaneous squamous cell carcinogenesis. (28)
09:00 - 09:30	Keynote speaker	De Grujil: Effect of immunosuppressants on UV carcinogenesis.
09:30 - 09:45	Abstract 14	Hofbauer: Calcineurin and ATF3: opposite role in keratinocyte cancer development versus senescence. (5)
09:45 - 10:00	Abstract 15	Euvrard: Efficacy of rapamycin in the secondary prevention of skin cancers in renal transplants. Tumorapa study interim analysis. (18)
10:00 - 10:15	Abstract 16	Dziunycz: Squamous cell carcinoma of the skin shows a distinct microRNA profile modulated by UV radiation. (10)
10:15 - 10:30	Abstract 17	Andresen: Aspects of constitutive gene variants, exemplified with TP53 and IL10, and their potential to qualify as predictive markers in assessing risk of squamous cell carcinoma (SCC) in renal transplant patients. (24)
10:30 - 10:45	EXTRA TIME FOR DISCUSSION	
10:45 - 11:15	COFFEE AND TEA BREAK	
11:15 - 11:30	Abstract 18	Jahn: First case of cicatricial pemphigoid of the Brunsting-Perry type in an organ transplant recipient. (11)
11:30 - 11:45	Abstract 19	Geusau: In vitro susceptibility of Candida isolates from organ transplant recipients to newer antifungals. (12)
11:45 - 12:00	Abstract 20	Imko-Walczuk: Superficial fungal infections in 222 consecutive renal transplant recipients. (20)
12:00 - 12:15	Abstract 21	Seçkin: Clinical and dermoscopic follow-up of acquired melanocytic nevi in organ transplant recipients: a preliminary study. (16)
12:15 - 12:30	Abstract 22	Wisgerhof: Subsequent squamous- and basal-cell carcinomas in kidney-transplant recipients after the first skin cancer. (6)
12:30 - 12:45	Abstract 23	Lambert: PTPRD deletions are associated with metastatic cutaneous squamous cell carcinoma. (25)
12:45 - 13:00	EXTRA TIME FOR DISCUSSION	
13:00 – 14:00	LUNCHEON	Rikshospitalet
14:00 - 17:00	Social program: Bus to Folk Museum & Viking Ship Museum, Return to hotel by foot (5 min), ferry (10 min), foot (10 min).	
17:30 – 18:30	SCOPE Board meeting & Ad hoc-groups in Hotel Holberg	
19:30 – 22:30 00:00	Bus to Vettakollen RECEPTION DINNER, Home of Drs Mørk, Return to hotel by busses.	

POSTER	Poster 1	Imko-Walczuk: Rapamycin as a therapy of choice after renal transplantation in a patient with Tuberous Sclerosis Complex. (8)
POSTER	Poster 2	Imko-Walczuk: Skin cancer in Polish Renal Transplant Recipients (RTR). (22)
POSTER	Poster 3	Aldoori: Skin cancer following bone marrow transplantation: a case series. (14)
